117.4 mm × 27.8 mm × 16.8 mm
- Net Weight: Approx. 90 g
- E-liquid Capacity: 2 ml
- Output power: Maximum 35 W
- Cartridge Specifications:
FeCrAl Meshed 0.4 Ω CALIBURN G3
Integrated Coil Cartridge (top refill)
FeCrAl Meshed 0.9 Ω CALIBURN G3
Integrated Coil Cartridge (top refill)
- Battery Capacity: 1000 mAh

Instructions

1. Cartridge Filling and Replacement

- a. Take the cartridge off the new device for the first filling and remove the insulating film on the bottom of the cartridge before use.
- b. Take off the drip tip as the picture shown below.
- c. Fill the cartridge through the red filling port, put the drip tip back and the clicking sound will hint at proper installation.
- d. For the cartridge replacement, please remove the used cartridge and insert a new one.

Attention:

- Please fill the e-liquid from the red filling port instead of the airway in the middle.
- Please make sure the drip nozzle is fully inserted into the filling port before the filling start.
- Please put the drip tip back as soon as the filling is done, and make sure it is properly sealed to prevent e-liquid leakage.
- Let the cartridge sit for 10 minutes after the first filling to avoid coil burning.
- Please make a timely refilling when the e-liquid is under the MIN level.

2. Turn On/Off

Press the button 5 times within 2 seconds to turn on/off the device.

On: The screen and "G3 PRO" logo will flash 3 times.

Off: The screen and "G3 PRO" logo will flash 3 times.

3. Standby

The screen will be off in 3 seconds if without any operation, and the device will be on standby.

4. Lock/Unlock the Button Ignition

1. When you turn on the device for the first time, the device will enter auto mode by default, which supports the air activation and the button activation.	
2. Press the button twice in 2 seconds to switch to the air activation mode and lock the button ignition function.	
3. Press the button twice in 2 seconds to switch to the auto mode and unlock the button ignition function.	

5. Power Adjustment

- Press the button 3 times to enter into power adjustment mode. The power that displays on the screen will flash during the adjustment process.
- Press the button to choose a preferred power among the corresponding power range, or you can hold the button to adjust the power quickly. The value of the power will be displayed circularly while adjusting.
- Wait 3 seconds or take a draw to confirm your selection, then the device will exit the power adjustment mode and the power displayed on the screen will stop flashing.

Compatible Cartridges	Power Range
0.4 Ω CALIBURN G3 Integrated Coil Cartridge	5 W - 35 W
0.6 Ω CALIBURN G3 Integrated Coil Cartridge	5 W - 25 W
0.9 Ω CALIBURN G3 Integrated Coil Cartridge	5 W - 15 W

6. Vaping

Please take a draw or press the button to vape when the device is powered on. During vaping, the "G3 PRO" logo will flash.

7. Puff Record

- The device will only record puffs that last over 0.5 seconds. The puffs that last less than 0.5 seconds will not be counted.
- The maximum number of records is 999, and the recorded numbers will be reset automatically when they exceed 999.

8. Battery Level Indication

During vaping, the device will show the current battery level on the display.

Battery Level	Display
Over 75%	4 bars
50% ~ 75%	3 bars
25% ~ 50%	2 bars
1% ~ 25%	1 bar
Less than 1%	Low battery, the device will stop outputting

9. Charging

Connect the device to a power source through a TYPE-C charging cable.

The screen will show a dynamic charging icon and "G3 PRO" logo will flash.

When you remove the charging cable, the screen and "G3 PRO" logo will stay on for 3 seconds and then go off.

When the charging is done, the screen will be off and the "G3 PRO" logo will stop flashing after 30 seconds.

10. Protection and Indication

a. Short-circuit protection:

When a short-circuit occurs, the screen displays a "WARNING" and a short-circuit icon. The "G3 PRO" logo flashes 3 times and the device stops outputting.

b. Low voltage protection:

When the power is low, the screen displays a "WARNING" and a low-battery icon. The "G3 PRO" logo flashes 10 times and the device stops outputting.

c. Overtime protection:

The screen displays a "WARNING" and an 8s icon to indicate an over 8-second vaping. The "G3 PRO" logo flashes 5 times and the device stops outputting.

- d. Open-circuit protection: When an open-circuit occurs under a no cartridge or disconnection situation, the screen displays a "WARNING" and a no atomizer icon. The "G3 PRO" logo flashes 4 times and the device stops outputting.

Warm Tips

1. Please charge with the certified power adaptor (5V/2A) and USB cable.
2. Please remove the cartridge from the device and store it separately when you travel by air, for the air pressure change may cause leakage.
3. Avoid high temperature, low temperature, flammables, explosives, water, and humid environment during the use or storage of the product. Please do not keep the product with hard objects to avoid damage. Please charge the device at least once a month.
